Subject: RE: SJV PM10 plan?

Hi Gwen,

In our weekly touch-base calls with SJV, they mentioned several different months they'd anticipated taking the 2nd PM10 Maintenance Plan to their board, one of which was December, so I had heard about that possibility. That said, I know they're aware of the contingency element that's still in need of discussion.

If you're available, I would like again to work at having a tri-agency call to address contingency before any drafts land here at CARB. The EEs need and deserve their own call. Let me know and I'll aim to get something on the calendar soon to discuss contingency.

Thanks,
Webster

Hi,

I just talked with Jessica Olsen – we were mainly touching base to see what the October EE call might cover, but she also mentioned they are anticipating taking their PM10 maintenance plan to their board in December. Have either of you heard that?

Makes me a bit nervous as to my knowledge, we haven't seen any of the plan recently, I believe there will be EEs involved, and we were hoping to discuss the contingency portion of their plan with them in more detail before they finalized.

I'll plan to call Jon early next week...

Thanks,
Gwen
